Dear Mr. Weisberg,

I'm sure you are a very busy man but I hope you will find time to possibly send a reply to this letter. I understand that you have published several books pertaining to the assassination of John Kennedy. I understand they are called Whitewash 1, 2, 3, etc. I have read most all the books on the subject but I have unable to find your books in my local library. Is it still possible to obtain these books from you? If so, what do they cost? Which of these books do you recommend as good books pertaining to the assassination itself?

From the reading of other books I have come to understand that you are probably one of the foremost experts on the Assassination and the evidence presented by the Commission. Recently, there has been much talk of a new investigation of the Assassination. Do you have any information on this? I understand that there has been several resolutions in the Congress trying to open up a new investigation. Do you know the present situation of this effort? Its been over 11 years since the assassination; has there been any new evidence or new hypotheses concerning the assassination?

Since you seem to be one of the leading experts on the assassination, you probably saw the March broadcasts of Geraldo Rivera's: Good-Night America which I believed showed Zapruder's film of the assassination for the first time on network television. What is your opinion of the guests who appeared on those shows? If you don't mind the flattery, I think you should have been on those shows! Even those who appeared on the show and criticized the Commission didn't seem to be that well informed. From what I hear of your intensive investigations in the National Archives, you know the evidence better than almost anyone.

Thnaks so much for reading my letter--I would be ever so grateful if you could find time to drop me a note. Sincerely,

Thomas Burk

Dear Mr. Burk,

Enclosed is a list of my books with instructions on how to get them.

Several resolutions for a new investigation have been introduced. The reality is that none will have an easy time and some will have less prospect than others.

We are organizing a group that will not consist of those who have been and are commercializing and self-promoting to help persuade the Congress. Mostly this group will be of students. It will help if you write Congressmen and Senators and ask for a new and real and public investigation. If you can get others to do this and send me copies, when the students are fully organized I'll turn the copies over to them to help them in their efforts.

Frankly, those you saw on TV are those who are the self-promoters. Not one is or ever was an authentic expert. They saw to it that I could not be on the Rivera or any other show simply because they can't stand being shown to be non-expert and this would ruin them.

There is nothing I can do about this but I assure you I did try, including with ABC and its lawyer.

You see the net result and the predictable one in the Rockefeller report.

Although individuals may think it is a futility I do believe that it is important that each write his own legislators and I do not think success is impossible if enough people are activated.

Sincerely,

Harold Weisberg
